

Training Programme 2021

We want to help more people increase their skills, knowledge and confidence when supporting neurodivergent children and young people, including those who may have learning difficulties. We do this by providing a range of training, resources and events.

Our current training programme is listed below but if you'd like to talk to us about your training needs, please contact training@mindroom.org or call 0131 370 6730. Our training is delivered by staff with lived experience of neurodiversity.

It Takes All Kinds of Minds: Supporting neurodivergent children and young people

Overview	<p>Join our virtual workshop to raise your understanding of neurodivergent children and young people, including those who may have learning difficulties.</p> <p>Using five short films made in collaboration with children, young people their families and carers we explore how you can begin to take a more holistic, strengths-based approach to supporting people with ADHD, Autism, Tourette's Syndrome, Dyslexia and Developmental Co-ordination Disorder (Dyspraxia).</p> <p>During this interactive training you will expand your knowledge and understanding of neurodiversity and will be encouraged to reflect on how your practice can promote inclusion and acceptance.</p>
Learning outcomes	<p>At the end of the course delegates will have an improved understanding of:</p> <ul style="list-style-type: none">• Common neurodevelopmental conditions• The strengths and challenges associated with common conditions• Ways to support neurodivergent children and young people.
Duration	Half day
Who should attend	This course is suitable for those seeking an introduction to the concept of neurodiversity and no previous knowledge is required.

Neurodiversity and why it matters

Overview	Neurodiversity refers to the natural variations in the human brain and encourages us to consider the strengths of people who think, feel, and experience the world differently. In this course delegates will explore how neuroinclusive practice can reduce stigma and promote acceptance of this often-overlooked form of human diversity.
Learning outcomes	At the end of the course delegates will have an improved understanding of: <ul style="list-style-type: none">• What neurodiversity means• Common terminology• Disability, difference, and neurodiversity• The strengths that come from thinking differently• Why neuroinclusive practice matters and where to start
